

The following are excerpts from the Q1 2022 Earnings Conference Call with Entegris, Inc. on April 26, 2022:

Bertrand Loy:

Moving on to our pending acquisition of CMC Materials. We are pleased with the progress we have made toward the closing of the transaction. As a reminder, on March 3, CMC stockholders approved the transaction. On the regulatory front, we cleared the HSR waiting period in the U.S. in January, and we have since received antitrust approvals in Korea and in Taiwan. We are now awaiting approvals from a few remaining jurisdictions. So again, on track, and we continue to believe that the transaction will close in the second half of this year.

We have also made substantial progress putting in place the capital structure to finance the acquisition, and Greg will provide you more details on that in a moment.

Finally, our joint teams continue to work diligently on integration planning. We are in the process of developing a detailed integration plan, following a playbook we have used in previous transactions, including the ATMI acquisition. I would also like to highlight our recent announcements that Todd Edlund, our COO, will be retiring from Entegris at closing. Todd has been a great partner to me, and I cannot thank him enough for the impact he has made on Entegris during his 30 years of service. Post close, we will have a flatter leadership organization, positioned to rapidly complete the integration, drive revenue and cost synergies and pay down the debt.

Gregory B. Graves:

Thank you, Bertrand, and good morning, everyone. Before I cover our Q1 results, I wanted to provide an update on the financing of the CMC acquisition. In an effort to proactively mitigate the risk of the deteriorating interest rate environment, we have already put in place over \$4 billion of the permanent debt financing for the acquisition.

Earlier this month, we completed an offering of \$1.6 billion of 7-year investment-grade senior secured bonds at a rate of 4.75%. And in March, we syndicated a \$2.5 billion term loan at a floating rate of SOFR plus 300 basis points to be issued at the close of the acquisition. I am pleased with what we've been able to achieve and the positive market reception to our offerings.
