

## Bertrand Video Script for Entegris Colleagues

---

Hi everyone.

It is an exciting day for Entegris, and I wanted to take a minute to share the news with all of you directly.

As you know, we have completed a number of transactions over the years that have allowed us to meaningfully advance our offering and strengthen our position in the markets we serve. Today we are announcing that we have reached an agreement to acquire CMC Materials.

This transaction is another important step forward for Entegris and will help us to continue meeting the growing and evolving needs of our customers.

Many of you are already very familiar with CMC Materials, which is a leading supplier of advanced materials primarily for the semiconductor industry. Like Entegris, CMC Materials supports and collaborates with customers to produce materials that are key to solving some of the most demanding manufacturing challenges. CMC Materials has an excellent reputation in the industry for quality and on-time delivery, among many other things. So, we are excited to work together to tackle new challenges and advance our mission of providing unique process solutions for customers and help them improve both the performance of their products as well as their manufacturing yields.

In particular, the addition of CMC Materials' leading CMP technology to Entegris' advanced solutions will create a comprehensive and innovative electronic materials platform. Not only will we meaningfully expand our served markets, but – more importantly – combining our highly complementary portfolios will pave the way for us to enhance our customer relationships and shorten our time-to-solution. We will also be positioned to unlock significant growth and realize revenue synergies through enhanced innovation, scale, and execution.

This is an exciting combination – not just for our customers but also for our team, as we expect our new scale and combined growth momentum will generate new opportunities for all our colleagues as we continue to grow our business.

So, what comes next?

Well, we expect to close the transaction in the second half of 2022, subject to customary regulatory reviews and approvals. And until then of course, Entegris and CMC Materials will continue to operate as two separate entities.

So between now and the close of this exciting transaction, the best thing we can do is to continue to stay focused on executing our plans and delivering great value to our customers. A dedicated team of representatives from Entegris and CMC Materials will work together to develop integration plans ahead of closing, leveraging our past experience in successfully integrating acquisitions into our company.

So, you should expect minimal impact on your role and your day-to-day responsibilities, and we expect this to be a seamless transition for all our stakeholders.

As always, we are very committed to being open and transparent with you throughout this upcoming integration process.

Finally, on behalf of the ELT, I would like to thank you for everything you have done to advance the Entegris brand in the industries we serve. I am deeply grateful for your continued hard work and dedication, especially in this very challenging business environment.

So, I hope you share my excitement for the journey ahead, and we will be keeping you updated on the progress of this transaction.

Thank you.
