### Cost Reductions Lower Quarterly Break-Even Point to Below \$85 Million

CHASKA, Minn., April 30, 2009 (GLOBE NEWSWIRE) -- Entegris, Inc. (Nasdaq: ENTG) today reported its financial results for the fiscal first guarter ended March 28, 2009.

The Company recorded first-quarter sales of \$59.0 million and a net loss of \$37.7 million, or \$0.34 per share. These results included additional cost of sales of \$4.1 million related to inventory acquired in the acquisition of Poco Graphite, amortization of intangible assets of \$5.0 million, and restructuring charges of \$4.6 million.

Gideon Argov, president and chief executive officer, said: "Our first quarter sales reflected the dramatic global drop-off in semiconductor and electronics manufacturing activity, even though there was a modest pick-up in sales of our liquid filtration products in March.

"In addition to the long-term and temporary cost reductions we implemented in February, we have taken additional measures to further lower our quarterly break-even point to below \$85 million. Our EBITDA loss for the quarter as defined by our amended revolving credit agreement was \$16.0 million, well within the \$31.0 million allowed under the covenants. We are confident these cost reductions, and the \$95 million in cash on our balance sheet, will enable us to manage our business effectively under the terms of our credit agreement, even in the unlikely event that revenues continue at the current extraordinarily depressed levels through 2009," Argov said.
